Journal-Based CME

- √ All peer-reviewed scientific articles accepted for publication in the *Journal of Clinical Sleep Medicine* will automatically be designated for category 1 CME credit.
- √ As a requirement for CME designation in the *Journal of Clinical Sleep Medicine*, each article's overall educational objective must be identified. You are encouraged to provide a one-sentence educational objective (below). The educational objective will be published in the same issue that your article is scheduled to be published.
- √ The educational objective should clearly answer the following two-part question: What should the reader be able to do after reading your article and under what conditions? Use the space provided below to indicate the educational objective (please print legibly or type).

After reviewing this article, readers should be able to (one sentence only, please):
