

American Sleep Medicine Foundation Donation 2012 American Academy of Sleep Medicine Member-Get-A-Member Campaign REM Voucher Redemption Form

The American Sleep Medicine Foundation (ASMF) is the leader in supporting sleep research and education. It was established in 1998 by the American Academy of Sleep Medicine (AASM), the premier professional society in the field of sleep.

The mission of the ASMF is to enhance sleep health for all through research, education and humanitarian aid. ASMF grant programs fund strategic research by leading sleep scientists. These studies explore the nature of sleep and sleep-related problems. The discoveries that result lay the groundwork for improvements in medical care for people who have a sleep disorder.

The ASMF also supports the entry of young physicians and scientists into sleep research and academic sleep medicine. ASMF grants help the leaders who will shape the future of the sleep field.

Your donation to the ASMF provides hope for the millions of people who suffer from sleep disorders. Because the AASM provides the funding for all of the Foundation's administrative costs, every dollar you give directly supports ASMF grant programs.

Thank you for helping to enhance sleep health for all by giving to the ASMF.
